UNITED STATES DEPARTMENT OF JUSTICE
FEDERAL BUREAU OF INVESTIGATION

WASHINGTON, D.C. 20535

June 21, 1968

(A) **DETPRO - SECURITY INVESTIGATIONS OF INDIVIDUALS** -- The primary purpose of the investigation of subversive individuals is to determine their identities, activities, and/or whether they present a serious threat to the internal security of the country. If investigation develops positive evidence indicating that an individual presents a threat or potential threat to the internal security, his name is included in the Security Index. The Security Index contains names of individuals who are considered for immediate apprehension and detention in the event of a national emergency, in order to safeguard the internal security of the United States. The list now consists of over 10,000 names. Effective immediately, the following Priority Apprehension Program and report writing procedures will be instituted:

1. The Priority Apprehension Program is being divided into three Priority levels.
 - a. **Priority I.** This list will consist of hard core national and state basic revolutionary organization leaders and those leaders of other subversive organizations and unorganized groups and individuals who have indicated a propensity for violence and/or have received special training in sabotage, espionage, and/or guerrilla warfare. Individuals employed in or having access to key and/or defense facilities will be included on this list. Verification of residence and employment of each individual will be made every three months. A report will be submitted every six months.
 - b. **Priority II.** This list will consist of second level leadership of basic revolutionary organizations and other subversive organizations and individuals who present a significant threat but are in less influential positions than those in Priority I. Verification of residence and employment of each individual will be made every six months. A report will be submitted on an annual basis.

NOT RECORDED
170 JUN 26 1968

56 JUL 2 1968

- c. Priority-III. This list will consist of all other individuals on the Security Index. Verification of residence and employment of each individual will be made every six months. A report will be submitted every two years.
- d. Each Priority List will be broken down into nationalistic tendencies and/or organizational affiliations so that apprehensions can be made in each category on a selected basis.
- e. Individuals in each Priority will be apprehended only upon the Attorney General's authorization that their immobilization is in the best interests of the national defense of the United States.
2. The category "Key Figure" is being deleted. Consideration should be given to placing these individuals in Priority I.
 3. The category "Top Functionary" is being continued, and these individuals should be placed in Priority I.
 4. Each office should immediately review its Security Index and by letter under above caption advise by name, Bureau file number, and organizational affiliation those individuals who are to be included in Priority I and Priority II. This should reach the Bureau by July 5, 1968. The Chicago, Los Angeles, New York, and San Francisco Offices may submit their letters to reach the Bureau by July 15, 1968. Hereafter, when recommending an individual for the Security Index, the FD-122 should indicate the Priority.

Appropriate manual changes will be forwarded.

SUGGESTION

It is suggested that with the Security Index now being set up on a Priority system that the security forms FD-122 and FD-128 be revised to provide a space for inserting the Priority of the subject of the case. It is further suggested that a space be provided on these forms, to be used only if the subject falls in Priority I or II, in which to explain the reason for being placed in either of these Priorities.

It is also suggested that the file covers on Security Index subjects have added under the letters SI the Priority number.

Current practice or rule (include manual citation as well as facts)

Priority designation does not appear on file covers or FD-122 or FD-128.

Advantages of suggestion and annual savings (include basis for estimate)

See page 2.

Disadvantages of suggestion

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any invention owned only if my suggestion is adopted within two years after submission.)

Mr. Mrs. Miss

Recommendations and comments of Division Head

I have reviewed the above suggestion and it appears to have merit. I recommend the suggestion to the Bureau for its consideration.

(Do not write in this space - for Bureau use only)

ENCLOSURE

Recording the Priority number on the form FD-122 will make a permanent record in the subject file as to the subject's Priority without the necessity of preparing a separate memorandum but yet make a uniform reporting system. The Priority space and the space explaining the reason for the subject being placed in a specific Priority would be completed on form FD-122 only in cases of recommending a subject for the Security Index or when the Priority was being changed in a case. This would assist the Bureau in keeping all field offices uniform in placing subjects in the various priorities. It would also greatly assist all field offices in the handling of Security Index cases where such cases are re-assigned from time to time and it becomes necessary for an Agent, new to the case, to know what Priority the subject is in and why the subject was given this Priority if in Priority I or II.

In the years to come, this would greatly facilitate an extensive file review since the Agent would know that the Priority rating and the reason therefore would be on the FD-122 or the FD-128.

With respect to the annual savings that could be expected, a given sum would be difficult to estimate. It should be noted, however, that countless hours of file review in cases of extremely active subjects would be saved.

Chicago, Illinois

Dear

I have received your suggestion that Forms FD-122 and FD-123 be revised to include space for certain information and that file covers on such cases contain the priority numbers. You may be interested to know that several changes were being prepared regarding this matter when your proposal was received and spaces will be provided on these items for the numbers involved. It has been decided the other action mentioned by you is not warranted at this time.

The interest and initiative which prompted you to give me the benefit of your observations on this subject are indeed appreciated.

Sincerely yours,
J. Edgar Hoover

NOTE: Suggests since the Security Index (SI) is now being set up on a priority system that Forms FD-122 (Recommendation for Preparation of, or Change in, Security Index Card) and FD-128 (Letter Changing Office of Origin in Security Cases) (samples attached) be revised to provide space for inserting priority of subject of case. Further, suggests space be provided on these forms, to be used only if subject falls in priority I or II, in which to explain reason for being placed in either of these priorities. Also, suggests file covers on SI subjects have added under the letters SI the priority number.

Domestic Intelligence Division has advised that several changes are being made regarding the handling of security investigations of individuals including revision of the forms mentioned to provide spaces for entering the priority number. Another change will be in the colors used for the Security Index Card, a different one for each priority, so no need will exist to place priority on file covers. Reason for being placed in a particular priority should be contained in a succinct summary on second page of communication recommending subject be placed on SI. FD-128 does not need to have reason thereon. Due to these views, Training Division recommends no further action regarding this idea.

The entire security index is maintained at the Bureau through the utilization of IBM tabulating cards. The 5- by 9-inch security index cards are printed by Automatic Data Processing and transmitted to the field. Through the use of this device, the security index can be broken down into the various categories of information appearing on the security index cards when such breakdowns become necessary for administrative purposes at the Bureau. This procedure makes it possible to maintain the content of the security index in the field and at the Bureau in an identical condition at all times.

An alphabetical breakdown of the true names and all aliases of security index subjects is also maintained at the Bureau for administrative purposes.

For this purpose utilize form FD-376, which is designed to serve as a letter of transmittal for both local dissemination and dissemination at the SOB. The original and one copy of this form should be forwarded to the Bureau. A copy is to be maintained in the main case file and upon transferral of office of origin in any case, the new office of origin is to be furnished a copy. Careful consideration must be given to insure that the individual is properly categorized. In the case of a subject being recommended for the security index, withhold dissemination pending Bureau approval of his security index status only in those cases in which the subject is categorized as falling within Category 3 of the Agreement between the Federal Bureau of Investigation and the Secret Service concerning Presidential Protection. Forward FD-376 as in any other case. Prompt dissemination should be made of information developed regarding individuals falling within other than Category 3.

SUGGESTION

It is suggested that when current supply of FD-122, FD-122 a
FD-397 is exhausted, these three forms be consolidated into
one printed form. (Ten copies of proposed form attached).

SECURITY INDEX

Current practice or rule (include manual citation as well as facts)

Current practice calls for separate forms in Agitator Index (racial
matter) and Security Index and Reserve Index (security matters), and
manual provisions regarding submission of each are identical.

Advantages of suggestion and annual savings (include basis for estimate)

Consolidation of three forms
into one printed form would reduce inventory of forms necessary to
include subjects on each above-mentioned index; and, where subject's
activities warrant inclusion on both Security and Agitator Index,
submission of a form with justification for both Indexes would eliminate
an entire agent, stenographic, clerical and SOG supervisory operation.

Disadvantages of suggestion

None. Involves only minor typographical change in
format to be used for next printing when current supplies exhausted.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or
assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted
within two years after submission.)

Dear I

Thank you very much for the suggestion that three particular forms be combined into one when our present supply is exhausted. As a matter of possible interest to you, these items were designed for specific purposes and it was decided any attempt to place all the necessary information on one format would cause confusion.

I appreciate the thoughtfulness which prompted you to give me the benefit of your observations on this subject.

Sincerely yours,

Domestic Intelligence Division opposes adoption. It is more practical to have separate forms for these three programs. By having them combined into one format, additional work would be involved on part of Agents handling these matters on part-time basis in determining which items are needed for particular program he is working with at the time. Each form was designed for a specific purpose and combining them would result in confusion on part of field. These forms are prepared separately and maintained separately and would not be feasible to handle as one format. Training Division agrees and recommends idea not be approved.

From: (Suggester's name)

SUGGESTION It is suggested that a modified version of FD-154 (Verification of Information on Security Index Cards) form be made for handling of Verification of Information on Agitator Index Cards. Original and nine copies of suggested are attached.

Current practice or rule (Include manual citation as well as facts) Manual of Instructions IV-122 p.18
 Each three months the office of origin is to verify the residence and employment (of each of the individuals included in its agitator index) and review its files for pertinent, unreported information. (See page 2)

Advantages of suggestion and annual savings (include basis for estimate)
 Advantages to the suggestion would be that this form would contain information re residence and employment from subject's Agitator Index Card, and verification of same could be indicated thereon. It would also indicate if FD-397 should be submitted to Bureau and/or if letterhead memorandum should be submitted to the Bureau and Secret Service in the event of any change in information contained thereon. Form could also be used as basis for reopening file for each three month verification.

Disadvantages of suggestion

None known

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

(F) SECURITY INVESTIGATIONS OF INDIVIDUALS -- Effective immediately, revised Security Index criteria are as follows: (Underscoring indicates new or changed wording.)

- (A) Subject has had membership in, or participation in the activities of, a basic revolutionary organization within the last 5 years as shown by overt acts or statements established through reliable sources, informants, or individuals.
- (B) Subject has had membership in, or participation in the affairs of, one or more front organizations which adhere to the policies and doctrines of a basic revolutionary organization, in a leadership capacity or by active substantial participation in the furtherance of those aims and purposes of the front organization which coincide with those of a basic revolutionary organization, within the last three years as shown by overt acts or statements established through reliable sources, informants, or individuals.
- (C) Investigation has developed information that an individual, though not a member of or a participant in the activities of a basic revolutionary or front organization, has anarchist or revolutionary beliefs and is likely to seize upon the opportunity presented by a national emergency to commit acts of espionage or sabotage, including acts of terrorism, assassination or any interference with or threat to the survival and effective operation of the national, state and local governments and of the defense effort.
- (D) Although investigation has failed to establish the facts required by (A), (B) or (C) above, either as to the substance of those criteria or because there have been no overt acts or statements within the time limits prescribed, facts have been developed which clearly and unmistakably depict the subject as a dangerous individual who could be expected to commit acts of the kind described in (C) above.

SAC LETTER 68-59

59 0512 1008

Security Index criteria are as follows:

With the increasingly greater number of individuals active in the New Left and other protest groups, our investigations must be thorough, penetrating and complete. We must develop and report not only membership, leadership and activity in New Left or dissident organizations, but also whether the individual has engaged in or professed violence or other unlawful methods to gain his objectives. An individual's propensity for violence must be determined.

Your investigation must clearly show that individuals recommended for inclusion on the Security Index come within the required criteria, are fully justified, and retention of such individuals on the Security Index could withstand judicial inquiry.

Re Chicago airtels and LHM to Bureau, cc to Cleveland, 12/13/68; Buairtel to Cleveland, New York and Philadelphia, 12/27/68.

Referenced Chicago airtel & LHM pointed out that the AUSA, Chicago, on 12/12/68, had declined to consider prosecution in this matter as it did not appear to be a prosecutable violation; the AUSA requested however, that attempts be made to have each of the three individuals in this case including interviewed inasmuch as they might possibly be used as witnesses concerning anti-riot law investigations at some future time. Cleveland was requested by the Chicago Office to attempt to again interview

As pointed out on pages A & B of the report of SA [redacted], 10/4/68, Cleveland, during the course of this investigation made a number of attempts to locate subject at her residence, in order to interview her but all attempts were unsuccessful; several other girls who are also active with [redacted] in the Movement for a Democratic Society (MDS), live at [redacted] with [redacted] and Agents in contacts with these girls left their names and the FBI telephone number asking them to have call the FBI, but she never did so. Inquiry was also made at other MDS subject's homes and the MDS Headquarters in

Vertical handwritten notes on the left margin.

Vertical handwritten notes on the right margin.

Cleveland but [redacted] could not be located for interview.

Based on the above, it was obvious [redacted] did not want to be interviewed by the FBI and Cleveland Agents feel that even if subject could be contacted in person, she would be uncooperative and hostile towards the FBI.

It is further pointed out that neither Cleveland Agents nor sources of the Cleveland Office have ever seen [redacted] at her residence, at any recent demonstrations or at any MDS meetings at Cleveland, nor has any information been received about her indicating she is presently in Cleveland.

Therefore since it is felt subject would be hostile and uncooperative if approached for interview by Agents, plus the fact that she has not been seen in the Cleveland area for several months, Cleveland does not feel any further attempts are warranted to try to interview her at this time.

For the information of the Bureau, Cleveland is currently conducting a security investigation on [redacted] in order to recommend her for the Security Index and efforts are being made to try to ascertain [redacted] current residence and whereabouts as she has not been seen in the Cleveland area in several months.

Director, FBI

SECURITY INVESTIGATIONS OF INDIVIDUALS

Bureau has noted that your office has been submitting letterhead memoranda in most instances involving investigations of individuals connected with Students for a Democratic Society (SDS).

Letterhead memoranda will be sufficient for those individuals where little subversive activity was developed and you desire to close the case as a result of your investigation. However, in those cases where substantial subversive, derogatory information is developed, it is desired that you submit reports rather than letterhead memoranda and disseminate same locally to U.S. Secret Service, particularly, in those cases where individuals are mentally unstable or show a propensity for violence.

As an illustration of the above, reference is made to Kansas City letter dated 12/30/68, enclosing a letterhead memorandum (LHM) of the same date regarding

Security Matter - SDS." This individual has been very active in the affairs of the SDS and according to your latest LHM, your investigation has developed that this subject is a schizophrenic and according to a physician he should be hospitalized for intensive psychiatric treatment. The results of all investigation to date in this case should be submitted in report form and a copy disseminated to U.S. Secret Service locally.

Bring the above observations to the attention of all Agents handling security work in your office.

SUBVERSIVE CONTROL SECTION
PROGRAM EVALUATIONPERIODIC REPORTS PROGRAM1. Origin

Annual reports in Security Index (SI) cases have been required since completion of the Summary Report Program 7/14/54 (New York Office 5/1/56). In certain type cases periodic reports were required at specified intervals for many years prior to 1954; i.e. key figures, top functionaries.

2. Purpose

To insure that current information is available to the Bureau in report form in order to keep the Bureau, as well as the Department, advised of the status of SI cases and in order to discharge our responsibilities of dissemination to other interested agencies in the executive branch of the Government.

3. Scope

All offices participate in this program.

4. Tie in With Other Programs

Closely related to the Emergency Detention Program, which deals with plans for the apprehension and detention of potentially dangerous individuals in time of an emergency.

Memorandum to
RE: SUBVERSIVE CONTROL SECTION
PROGRAM EVALUATION

5. Case Load

As of 10/15/65, there were 10,156 SI subjects, each normally requiring at least one report a year.

Some SI cases require more frequent reports; namely,
(a) top functionaries, quarterly reports. There are 27 individuals considered as "top functionaries." They represent the highest degree of leadership in subversive organizations and their activities are constantly being followed. (b) Key figures, semiannual reports are required in key figure cases presently numbering 480. These individuals represent leadership in subversive organizations on regional, district and state levels and we follow their activities closely.

6. Magnitude

This is a major program as evidenced by the fact that, with the exceptions noted above, in all SI cases investigations must be brought up to date and reports submitted at specified intervals. This does not include investigations and reports on individuals currently being nominated for the SI.

7. Administrative Controls

Each Supervisor handling security matter cases utilizes a tickler system to insure that reports are submitted when due by the field.

8. Adequacy and Currentness of Instructions

Instructions dealing with this program are found in Section S7D of the Manual of Instructions. This section of the Manual is up to date.

Memorandum to
RE: SUBVERSIVE CONTROL SECTION
PROGRAM EVALUATION

9. Over-all Value

Data dealing with this program is included in the budget material. In addition, this program enables us to thoroughly review the SI status of each individual subject on at least an annual basis. When information is developed clearly indicating that a subject no longer should be scheduled for apprehension, prompt action is taken to remove his name from the SI. Conversely, if the investigation develops evidence indicating that the subject presents a potential threat to the internal security in time of emergency, his name is included in the SI.

Reports in these cases are widely disseminated to various executive departments. Essentially, every security program of other branches of the Government depends to a large extent on information made available to them by us.

ACTION:

This program will be followed closely and we will continue to require reports in SI cases in accordance with the schedule referred to herein.

CURAN EMERGENCY PLANS
INTERNAL SECURITY - CUBA

Reference is made to the report of Special Agent [redacted] dated July 23, 1963, at Baltimore, Maryland, and other previous communications which have been furnished to the Records Administration Office of the Department, all captioned "Internal Security - Cuba."

The name of [redacted] FBI file number [redacted] was approved for inclusion in the Security Index by the Department on July 23, 1963, based upon his pro-Castro sympathies and the likelihood he would attempt violence.

[redacted] was afforded a hearing in the United States District Court, Baltimore, on November 8, 1963, to determine his mental competence. He was found to be seriously schizophrenic and incompetent to stand trial. The prognosis for his substantial recovery was declared to be almost hopeless. On December 24, 1963, he was committed to [redacted] a maximum security hospital for the criminally insane. The indictment against him was dismissed on December 20, 1963.

As [redacted] has been confined to a maximum security hospital for the criminally insane and his chance for recovery is almost hopeless, you are requested to advise whether his name should be continued in the Security Index.

Assistant Attorney General

NOTE:

This letter is classified [redacted] as it makes reference to the Security Index, component parts of which have been so classified by the Department. Subject is [redacted] Cuban alien included in the Special Cuban Section of the Security Index and Department has previously approved his retention therein.

Suggester recommends form FD-154 (Verification of Information on Security Index Cards) be revised to include Priority apprehension designation in lieu of Detcom tabbing. FD-154 currently utilized contains space for Detcom tabbing.

A program for the apprehension and detention of persons considered potentially dangerous to the national defense and public safety of the United States (Security Investigations of Individuals) approved by the Director 6/19/68 established three priority levels for apprehension of individuals deemed dangerous in the time of an emergency. Form FD-154 is utilized in the administration of the Security Index.

Revision of FD-154 as suggested (copy attached) will bring this form in line with current Bureau procedures in the administration of the Security Index.

Domestic Intelligence Division recommends adoption.

ATTORNEY GENERAL'S PORTFOLIO

The Attorney General's Portfolio contains details of plans and programs to be placed in effect in the event of a national emergency including the Program for Apprehension and Detention of Persons Considered Potentially Dangerous to the National Defense and Public Safety of the United States.

By letters dated April 27, 1953, and April 12, 1955, captioned as above, former Attorney General _____ granted me authority to implement the Apprehension and Search and Seizure Provisions of captioned Program under certain conditions. This authority was reiterated by former Attorneys General _____ and _____ on June 10, 1960; April 21, 1961; February 19, 1965, and April 5, 1967, respectively.

I would appreciate advice from you as to whether I can exercise this authority when such authority from either the President, the Attorney General, or one of the first eight persons in the chain of authority within the Department of Justice could not be obtained within the time necessary for such action to be instituted.

SUBJECT: EMERGENCY DETENTION PROGRAM

ATTORNEY GENERAL'S PORTFOLIO

Former Attorney General [redacted], on 4/27/53, (reiterated 4/12/55) granted the Director authority to implement the Apprehension and Search and Seizure Provisions of the Emergency Detention Program should a major surprise attack on Washington, D. C., occur and should the Director be unable to obtain a communication of authority from the President, the Attorney General, or one of the first five persons in the Department's chain of authority. This authority reiterated by succeeding Attorneys General [redacted] and [redacted]

It is believed that Attorney General [redacted] should be asked if it is his intention to continue the authority granted the Director by the former Attorneys General mentioned above.

It is noted that the Department's chain of authority lists Assistant Attorney General in Charge of the Internal Security Division in eighth position in the chain of authority. Since the Internal Security Division of the Department actually handles and is in fact the only Division within the Department which is thoroughly familiar with this Program, the request for authority necessary for implementation of this Program is being extended to the first eight persons in the Departmental chain of authority.

ACTION:

If you agree, there is attached a proposed letter to Attorney General [redacted]. A copy of this letter is being directed to the Internal Security Division inasmuch as matters dealing with the Emergency Detention Program are handled by that Division. A copy of attached letter also being furnished to the Deputy Attorney General.

SUGGESTION

When current supply of Form FD-154 (Verification of Information on Security Index Cards) is exhausted, suggested FD-154 be revised to include information re Priority tabbing. Also, to revise placement of information re photograph. Ten copies of revised proposed form attached hereto.

Current practice or rule (include manual citation as well as facts)

Priority tabbing information (Manual of Instructions, Vol., III Sec. 87, Page 62 (11), not currently included on FD-154. Info re photo not presently included on portion to be completed by agent. (M of I, Vol. III, Sec. 87, 50(b))

Advantages of suggestion and annual savings (include basis for estimate)

Placement of priority tabbing information would insure that subject is being carried in appropriate Priority classification and would verify subject should continue to be carried in present Priority classification or for some reason should be moved into another Priority classification in view of change in employment, etc. Information re photograph on bottom portion of FD-154 would insure current status of photo is available for proper notation on Security Index card, should date of photo be old but photo still current good likeness.

Disadvantages of suggestion

None.

(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States. I understand that I will be considered for any justified award only if my suggestion is adopted within two years after submission.)

1/31/69

Suggester recommends that Form FD-305 which is used to summarize a security subject's status on the Security Index be amended to show whether the subject is a top functionary and why he should continue to be so classified.

Suggester states this would serve to flag these cases at Bureau and act as reminder to field Agents that all security subjects should be reappraised for retention or deletion as top functionaries or should be recommended as top functionaries.

While the advantages set forth by the suggester are true, the Manual of Instructions, Section 87D, clearly outlines the criteria for designating subjects as top functionaries and the fact they are placed in Priority I of the Security Index and that the character of the communications submitted should be "Internal Security - (followed by letters designating organizational affiliation or nationalistic tendency)." Field recommendations for top functionaries are carefully appraised by Bureau in order to keep this designation on a very selective basis. Therefore, these cases are limited in number.

In view of the above, it does not appear this change in the FD-305 is warranted. Domestic Intelligence Division recommends against adoption.
